

CORINTH PODIATRY GROUP, PA

December 2004

This letter of recommendation is to state our complete satisfaction with the professional services provided to us by Marketed Care.

We engaged Marketed Care after receiving a very positive referral from another health care provider in our community. They had been very pleased with the results of their marketing plan.

We commissioned Marketed Care to help us retain our existing patient base following the relocation of our Lee's Summit facility. Debra put together a comprehensive program of mailings, advertisements, exciting new collaterals, and an outreach to the professional community with complete referral packets delivered to the referring physicians. The results have been outstanding!

We wholeheartedly recommend Marketed Care for your health care marketing.

Sincerely,

W. Christopher Cox, D.P.M.

C. Douglas DeTray, D.P.M.
